EXPERIENCE

Flutter Developer

07/2025 – 08/2025

Faculty Training

- Developed a responsive cross-platform mobile application to streamline doctor-patient communication and appointment scheduling.

BACHELOR'S DEGREE IN COMPUTER SCIENCE AND MATHEMATICAL STATISTICS

Bachelor's Degree in Computer Science and Mathematical Statistics

2022 – Present

Faculty of Science, Ain Shams University

SKILLS

Frameworks & Languages

Flutter (Mobile & Web), Dart

Tools & Backend

Git/GitHub, Firebase, REST APIs, GraphQL, Hive, GetIt, Dio

Architecture & State Management

Clean Architecture, MVVM, SOLID Principles, Cubit, Bloc

Professional

Problem Solving, OOP, Time Management, Team Collaboration

PROJECTS

PageBridge

- An application that integrates with the Notion API via OAuth. It acts as a mobile companion tool, featuring dynamic UI form generation for rapid database entry and paginated search feeds to streamline mobile workflows.
- Project Link: https://www.linkedin.com/posts/polymathoo_ugcPost-7463861134610317312-BLK-

Page.UI

- A high-performance Flutter web application that generates and renders live UI layouts from natural language AI prompts.

InsightMed

- Optimizes medical workflows by enabling patients to book appointments, upload X-rays, and view follow-up details, while simultaneously providing doctors with tools to efficiently summarize AI-assisted reports and manage patient records.
- Project Link: <https://github.com/Polymathooo/InsightMed>

FilmVault

- Movie discovery application supporting five categories (search, summaries, user reviews)
- Project Link: <https://github.com/Polymathooo/FilmVault>

Nazm

- Task management app with full CRUD operations
- Project Link: <https://github.com/Polymathooo/Nazm>

Calculator

- A modern, user-friendly calculator for basic arithmetic.
- Project Link: <https://github.com/Polymathooo/Calculator>

MindFeed (UI Only)

- A modern, UI-only application designed for discovering, managing, and consuming article content. It serves as a personalized reading feed.
- Project Link: <https://github.com/Polymathooo/MindFeed>
